

WHEAT VARIETY 25R35

Abstract

A wheat variety designated 25R35, the plants and seeds of wheat variety
5 25R35, methods for producing a wheat plant produced by crossing the variety 25R35
with another wheat plant, and hybrid wheat seeds and plants produced by crossing
the variety 25R35 with another wheat line or plant, and the creation of variants by
mutagenesis or transformation of variety 25R35. This invention also relates to
methods for producing other wheat varieties or breeding lines derived from wheat
10 variety 25R35 and to wheat varieties or breeding lines produced by those methods.
